

April 26th, 2023

Effective Immediately – for Visitors (including contractors) that have not had a COVID vaccination since September 1, 2022:

- They may still enter provided they are symptom free and test negative
- Registered Staff are to screen them in & complete a RAT test (please ensure details are entered in log book)
- They are to wear a purple mask for the entire visit-we will provide these purple masks
- They are only to visit with their own loved one

Effective May 1st, 2023 – for Staff:

- All staff entering the building are to screen themselves in and enter information into the log book – staff with symptoms of any illness are Not permitted to enter/work
- RAT tests will be available for any staff that wish to continue to test themselves when they arrive (please log results if you do)
- Those staff that have not had their updated booster since September 1, 2022, are required to continue to test upon entry every shift
- Those staff that have not had their updated booster since September 1, 2022, are required to wear a purple mask for the duration of every shift they work
