

## RE: FLU SHOTS

- Residents will be Oct 6 in the morning
- Please remember not to dress the residents in long sleeve shirts, please use short sleeves then sweaters
- Staff will be 1300 and after
- It is our goal to that all staff receive their flu shot by Nov 1
- If you wish to have Tamiflu on hold for this upcoming flu season there will be a health/consent form you will need to fill out when you receive your flu shot

## N95 Fit Testing

**To Ensure that we have enough participants for the company to come from Toronto to complete the N95 fit testing Oct 4 we are now opening it up to all other staff – the majority of us are due again in Jan '23 anyway so better to get it done early**

Please sign your name on the posting, near the women's change room, beside the time you wish (if you are working you can just leave the floor to have the testing done)

**Multiple people can go at the same time**
