

FEBRUARY 2023 PALLIATIVE CARE EDUCATION FOR FAMILIES

- We have different aspects of Palliative Care within our Home. They include Our Palliative Care Philosophy as well as Caring for Residents at the end stage of life.
- Palliative care is a philosophy of care that aims to relieve suffering and improve the quality of living and dying
- Palliative Approach ensures we are meeting the needs of our residents and their family. This reinforces the resident's autonomy and right to be actively involved in their own care. We also strive to give both residents and their families a greater sense of control.
- We use a holistic palliative care assessment to identify residents needs. With the resident and family involvement, we create a Plan of Care to address the identified needs.

Included in this package are pamphlets that we provide on admission.

If you have any questions, please do not hesitate to call
